HOSE BOYS.—The twelve boys who man hose cart, No. 1, of the Fire Department organized last Sunday by electing the following officers: Foreman, Lisle Jamison; Assistant Foreman, Chas. Hill; Secretary, G. R. Mosher; Treasurer, Brewster Coffin. The following decorating committee was elected to decorate the hose cart for the procession on the 4th: H. L. Bowmer, Ben Richardson, I. D. Cross and Lisle Jamison. Dues two bits a month. The boys are proud of their hose cart, and certainly have had it promptly at every fire.

PAY CAR.—The C. P. pay car went through town on Sunday last, without leaving anything but smoke behind it. It stayed in Wadsworth over night, paid the employees there yesterday morning and then went on Eastward. It will be back the latter part of the week, when we hope it will leave the three months' wages which the company owes its men.

THAT CLARK.—That Clark who was killed by the Indians in the Black Hills was not the carpenter Clark of Reno, as feared. A letter from the Postmaster at Fort Laramie assured his friends here that it another person.

FLYING TRIP TO PYRAMID.

The New District—Favorable Outlook—Something About the Mines—Etc.

During the week past in company with two old-time Washoeites, a reporter of the JOURNAL made a brief visit to the new mining district near Pyramid Lake. That portion of the district at present attracting the greatest share of attention lies some eight or ten miles nearly east from Warm Springs and covers an area of some five or six miles square.

PYRAMID CITY,

the nearest point to Reno, is distant about 35 miles, and is reached by a good natural road, almost level and free from rock, with good water at Deep Well and Coyote Springs.

There are two camps in the district—Cold Springs and Pyramid City—the former I did not have time to visit, it being some three miles east of Pyramid and well up in the mountain. Pyramid City, which is the principal camp or business place of the district and eligibly located, consists of one store, boarding house and saloon combined, kept by our townsmen, Louis Walker, who seems to have a house full all the time; one saloon, one fruit and vegetable store, one hay yard and stable and the office of the Seg. Monarch Mining Co. A number of other buildings will be erected and other business opened out as soon as lumber can be procured. The town is watered from a spring of excellent water which is conveyed to the principal street by iron pipes. There seems to be plenty of wood and water throughout the district to meet all wants in that line for some time to come. There appears to be two well-defined

MINERAL BELTS,

About two miles apart, running nearly northwest and southeast, dipping to the north—the country rock being syenite. The more northerly of the mineral belts referred to seems, so far, to have received the almost exclusive attention of prospectors. Near Pyramid City and immediately south, the belt seems to be divided by a ridge 300 or 40 feet high, as on each side the ledges crop out with different capacities, whose average earnings will be about \$20 per month, or in the aggregate \$24,000 annually. If this money was kept at home, its circulation in our midst would be a general benefit. White laborers, as a general thing, spend their money freely upon necessities and luxuries, the merchant is benefited, and so on through the whole chain of trade. This company have tested their croppings thoroughly—the same having worked about \$30 to the ton.

THE BUCKEYE COMPANY

Are sinking a shaft on their claim, having let a contract for 100 feet, at which depth they will drift and enter their ledge. Others are preparing to commence work at an early day. On the south side of the hill there is not any work being done at present. The croppings on this side do not seem to run so regular, but to come out in immense chimneys from 25 to 100 feet in width. This ledge has been traced by the croppings for a distance of about three miles. The southern belt has but few locations made on it, though it promises in every way to be valuable. Mr. Eben Palmer has the first location on this ledge—the Pioneer—which he made some two years since. He will soon commence sinking the shaft. These mineral belts carry considerable porphyry—very similar in general appearance to the old croppings of the Savage and Gould & Curry on the Comstock ledge. The assays from the croppings of either of the belts referred to, range from three to twenty and some few as high as forty or fifty dollars, the ore being very free from base metal.

THE SURFACE OUTLOOK

Is decidedly favorable for the development of one of the richest and most extensive mining districts in the State. All owners of claims seem to be satisfied with the prospects and are going ahead to develop their claims in earnest, instead of trying to get up an excitement and sell out before proving what they have. We say there seems to be the general disposition of the owners of mines in our new district, and a commendable one too, for if followed with the

energy and industry with which they have started in, they will prove and have one of the most permanent and prosperous districts, by Fall, in the State or demonstrate its worthlessness. There have been a number of ledges found outside of the two principal belts referred to, the most important of which are the discoveries of Mr. Butcher and Mr. J. E. Linsley. The former has a well defined ledge of ore four feet in width, about eight inches of which show bromide of silver and which assays over

\$300 to the ton.

The latter has only a small vein of very rich bromide ore. Neither of these locations show porphyry croppings as in all other ledges of the district. A meeting of the miners of the district is called for Saturday, July 1st, 1876, at 4 P. M., to pass upon the validity of the organization and laws of the district. It is hoped that all interested will attend the meeting, since on the proper organization of a district and the selection of a trustworthy and efficient Recorder depends much of the prosperity of such district. Be sure and start right, guard well against conflicts of titles, and we shall confidently expect regular and large daily shipments of bullion from Pyramid City inside of a year. We regret that we did not have time to extend our visit further into the district. With a number of such old-time Comstockers as Lew Savage, Dr. Bishop, Geo. Alt, Tom Hymers, and many others, going after Pyramid mines, we feel assured of success for the new district.

WHERE THE MONEY GOES.—We have in the town of Reno some six or seven Chinese wash-houses, who earn, upon a low estimate, about \$1,500 per month in the aggregate. Of this sum it is calculated that not more than \$300 per month is paid out in this community for rents and incidentals, allowing \$1,200 per month, or \$14,400 per annum to find its way out of the county to China. In addition to this there are at least 100 Chinamen employed in town, in different capacities, whose average earnings will be about \$20 per month, or in the aggregate \$24,000 annually. Allowing \$4,000 for the incidental expenses of these 100 Chinamen, will still leave \$20,000 to be sent out of the State. Thus it will be seen that, between the Chinese wash-houses and Chinese help Reno contributes to the Chinese Empire the enormous sum of \$34,000 annually. If this money was kept at home, its circulation in our midst would be a general benefit. White laborers, as a general thing, spend their money freely upon necessities and luxuries, the merchant is benefited, and so on through the whole chain of trade. This company have tested their croppings thoroughly—the same having worked about \$30 to the ton.

MIXING SALE.—Dr. Bishop yesterday sold some mining ground, adjoining the Monarch, Pyramid, for \$2,000. Glad of it. If Pyramid turns out all right, the Dr. will be a millionaire. And for his sake we hope and believe Pyramid will pan out O. K.

ATTENTION.—The Knights of Pythias are hereby summoned to appear at their Castle Hall in full uniform at 8 P. M., Tuesday, June 27th, for purposes of initiation and for taking action on the matter of parade on July 4th. By order of

OFFICERS ELECTED.—At a meeting of Reno Encampment, No. 5, I. O. O. F. held last night, the following officers were elected for the ensuing term: G. W. Cunningham, Chief Patriarch; J. H. Borland, High Priest; C. H. Stoddard, Senior War- den; H. G. Mathewson, Junior War- den; Wm. Lucas, Scribe; D. McKay, Treasurer; J. K. Everett, F. A. Teas- land and A. Prescott, Trustees. The above officers will be installed at the next meeting of the Encampment by Deputy Grand Patriarch J. K. Everett.
